

# WALK-IN REFURBISHMENT OPTIONS

## SURFACE MOUNT REPLACEMENT DOORS

Replace your damaged or worn-out door without having to replace your current walk-in. Nor-Lake's replacement doors allow you to make your walk-in energy efficient again regardless of the manufacturer.

To make your walk-in look new again, just provide:

1. Rough opening size
2. Right or left hand door swing preference
3. Type of floor in your current walk-in

## ENERGY EFFICIENT LED LIGHTING

LED lighting minimizes energy expenses and maximizes profitability in walk-in operation. LED lighting is also ideal for walk-in coolers and freezers because performance is maximized in cold environments. LED lighting provides substantial energy savings and will maintain or increase light output.

P/N 157750  
9" standard over door -  
optional for ceiling mount

P/N 157751  
24" optional  
ceiling mount

P/N 157752  
48" optional  
ceiling mount

## DROP-IN FLOOR

Nor-Lake's Drop-In-Floor allows you to replace or add a floor to your existing walk-in. Field installed to replace a damaged or worn floor in your existing walk-in regardless of the manufacturer. You can also add an insulated floor to your existing floorless walk-in.

### Standard Features:

- Smooth aluminum interior floor
- Foamed-in-place plywood sub floor
- 1/8" diamond tread floor plate or 3/16" smooth aluminum floor plate
- Stainless steel cove molding
- Will support cart or caged delivery

## SECURE GUARD™ COOLER/FREEZER LOCK

Protect your inventory with this high security locking system.

### Standard Features:

- Limits access to the cooler/freezer
- Assures the door is automatically locked every time
- Can be retrofitted onto most any walk-in cooler or freezer door
- Assures the walk-in door stays shut to save energy and prevent product loss
- Designed with a "hold back" feature allowing keyless entry during peak operating periods
- Proprietary key design that prevents duplication
- Removable key cylinder
- Door can be re-keyed or adapted to a master lock system
- Lock is through-bolted so it can't be tampered with
- Durable cast aluminum handle
- 1/4" brushed aluminum face plate and inside plate
- Heavy-duty latch and strike
- Meets OSHA requirements for egress

### Other parts to help maintain your walk-in:

- Hinges
- Gaskets
- Door closers
- Handles
